

Equal Opportunity/DIVERSITY, EQUITY & INCLUSION

We strive to serve a broad and diverse consumer base, including comfortable access to individuals, families, groups, the physically challenged, hearing and visually impaired, non-English speaking persons, and to community cultural sub-groups. Referrals are made to outside agencies for those persons who we determine need a more appropriate level of care.

We make every effort to include diversity, equity, and inclusion practices in all we do, and use these practices in our business and the community we serve.
